

INVITATION: Final conference of the project RESET, on-line 19.1.2021 at 9:00 a.m.

CLUTEX is a partner of the international project RESET (Interreg Europe), which aims to improve regional policies to strengthen the innovation and sustainability of the textile and clothing industry.

*The aim of the project was to improve regional policies and promote a more sustainable approach to production in the textile and clothing sector. This includes the creation, management and improvement of the research, development and innovation infrastructures needed to develop greener and more sustainable textile and clothing products and processes that will differentiate these **regions from their competitors**.*

The final conference will present the Action Plans developed by the individual project partners, which set out in detail how policy instruments need to be improved in each region, indicating the measures required, the time frame, the actors, the possible costs and the sources of funding. They are intended to be integrated into the national and structural funds of the participating regions in order to significantly reduce the environmental impact of textile and clothing production in Europe while increasing the competitiveness of the sector.

Furthermore, the conference will present the results of innovative projects of small and medium-sized textile companies from the participating regions focused on the **development of personal protective equipment against COVID-19**.

Date: 19.ledna 2021, 9:00 – 13:00

On-line

Registration: <https://www.eventbrite.it/e/biglietti-reset-final-conference-131896677513>
