

**International project funded by the EC Horizon 2020 Programme
GA No. 873111**

Duration: 01/2020 – 12/2023

***Digital Platform for Circular Economy in Cross-sectorial
Sustainable Value Networks***

DigiPrime aims to develop and operate a new concept of Circular Economy digital platform overcoming the current information asymmetry among the value-chain stakeholders – a federated model of digital platforms for cross-sector business in the Circular Economy.

The key assumption of DigiPrime is, that through a properly designed and implemented digital platform, collaboration and data sharing among stakeholders can be promoted to boost currently untapped high-added value cross-sectorial circular business cases.

DigiPrime will be validated through 6 cross-sectorial pilots cases covering 5 different European industrial sectors (automotive, renewable energy, electronics, textile, construction) and by additional pilots in new sectors, funded through an Open Call mechanism.
